

Temporary Parking Permit

Valid from: Jul 29, 2023 at 12:00 AM

Valid to: Jul 31, 2023 at 12:00 AM

9D

Permit no.: T5456877

Plate no.: 92TR69

Issued: Jul 27, 2023 at 09:51 AM

Clearly display in vehicle

Instructions for display

To be valid, the permit must be clearly printed and displayed on the lower inside of the windshield on driver's side in such a way that the permit is visible.

Terms and conditions

Weekly permits expire at midnight of the permit end date.

A permit holder who parks on a street authorized for permit parking must park in a legal parking space and follow existing parking regulations. This permit will allow the holder to park within the designated permit parking hours of operation as well as exempt the holder from any 1, 2 or 3 hour parking restrictions. Please note that permit holders must comply with all "NO PARKING" regulations such as "NO PARKING 7:00 a.m. to 9:00 a.m."

Permits issued on an "area" basis display the corresponding area shown on the face of the permit. This will allow the permit holder to park on any designated street within the designated area

Permits issued on a "street-name" basis display the street identification number on the face of the permit. This will allow the permit holder to park only on the designated, signed section of the street for which the permit is issued.

Vehicle registration must remain valid and the validation sticker must be affixed to your licence plate, while you are the permit holder.

This permit is non-transferable and non-refundable.

Temporary Parking Permit Receipt

For your records

Confirmation no.: 33975456877

Permit no.: T5456877

Amount paid: \$29.82

Notes:

1. This permit allows you to park only on 9D.
2. This permit will be registered with The Toronto Police Service.
3. Your confirmation number may be used to reprint your permit.

Turn off your car's engine and breathe easier

Here's a simple step toward cleaner air. Turn off your vehicle's engine to improve the air we breathe. Harmful contaminants are released into the air when you idle your vehicle. Recent studies have shown that contaminants from vehicle emissions are major contributors to deteriorating air quality in our city. By turning off your vehicle's engine, you can do your part to help keep our air clean. Reducing idling not only helps to improve air quality, it saves money, too. Ten seconds of idling uses more fuel than re-starting your engine. If your vehicle is left idling for 10 minutes a day, you would use up more than 100 litres of fuel in a year. Improving air quality and saving money - that's a combination you just can't beat!
